

About TPCH Foundation

TPCH Foundation, through its fundraising initiative The Common Good, is dedicated to helping people live healthier for longer by supporting groundbreaking medical research, hospital support and patient care.

Our mission is to enable people to live healthier for longer by sustainably backing research and hospital innovation projects to their completion.

Our values: We are a people-based organisation where alignment with our core values is essential. Our values shape our behaviours, attitudes, and decisions, and they are a source of great pride for us.

Governance

TPCH Foundation is a statutory body incorporated by Queensland State Government legislation (*Hospital Foundations Act 2018 Qld*). We are a registered Health Promotion Charity (HPC) and legal entity that holds deductible gift recipient (DGR) not for profit status with the Australian Tax Office, and are required to follow strict requirements that govern our fundraising and promotion activities. To be entitled to registration as the HPC subtype of charity, an organisation must demonstrate that it is ‘an institution whose principal activity is to promote the prevention or the control of diseases in human beings’. Further details can be found in the ACNC [HPC factsheet](#).

As a charity that funds and administers monies for health and medical research associated with TPCH and CKW, TPCH Foundation acquits the funds we hold in alignment with the above legal requirements. We undergo yearly auditing, with annual reporting to the Queensland Minister for Health under the prescribed requirements of the *Financial Accountability Act 2009*, the *Financial and Performance Management Standard 2019*, and the detailed requirements set out in the *Annual report requirements for Queensland Government agencies*.

In addition to legal requirements, the Foundation also takes seriously our obligation to administer and acquit Donor funds as per the express wishes of our generous community of supporters.
